

*Luxury Residences on the Edge of the Forest*

## LIVE ON THE EDGE OF THE FOREST

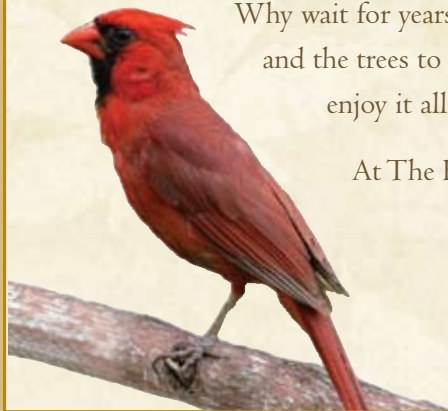

*At The Reserve you will only find luxury homes of quality and distinction. All are set on a single cul-de-sac of fifty foot lots, framed by towering trees and although consistent in width, each lot has distinctive qualities that add to its uniqueness.*

Each and every home not only includes superior finishes and the most wanted features, but has a basement walkout leading to your own very special backyard that is embraced by a forest preserve and edged in pines, maples and beech.

In this serene setting, insulated by the forest, it's easy to forget that all the shops, schools and services your family will ever need are all within easy reach and are here now, just waiting for you.

Why wait for years for your neighbourhood to mature and the trees to grow, when at The Reserve you can enjoy it all from the moment you move in.

At The Reserve, you will be Home at Last!

DISTINCTIVE IN EVERY DETAIL.

You'll never really understand how many shades of green there are until you arrive at The Reserve. In the forest, the seasons change with more conviction and drama than you thought possible. The complexities of fall, the lush and verdant spring and the pristine elegance of winter will buffer the world and elevate your spirits.

Amidst this woodland paradise, Heathwood Homes proudly presents an exquisite collection of luxurious family residences carefully designed to complement their very special setting.

Artist's Concept

# AT HEATHWOOD, *THERE IS A DIFFERENCE!*

Every family has a special place where they feel close, and where great memories are born on a daily basis. It's the warm and welcoming place they call "home". The place where kids forge lifelong friendships, where neighbours help one another, and where everyone looks forward to the next backyard barbeque.

At Heathwood, we go beyond just building homes. We look to the future and recognize that the neighbourhoods we are creating are the beginning of something new, something better, something different - not just for you and your family but for generations to come as well.

Protecting our planet and keeping our environment healthy has never been more important than it is today. That's why your new Heathwood home has been designed with a long list of environmentally friendly features that will make a real difference. You'll enjoy lower energy bills, improved comfort and the knowledge that you are part of that difference, not just for today but tomorrow.

At Heathwood, *there is a difference.* And together we can make a difference.
